
~30% of the Building
Resources of past
Civilizations were
Spent on Drainage

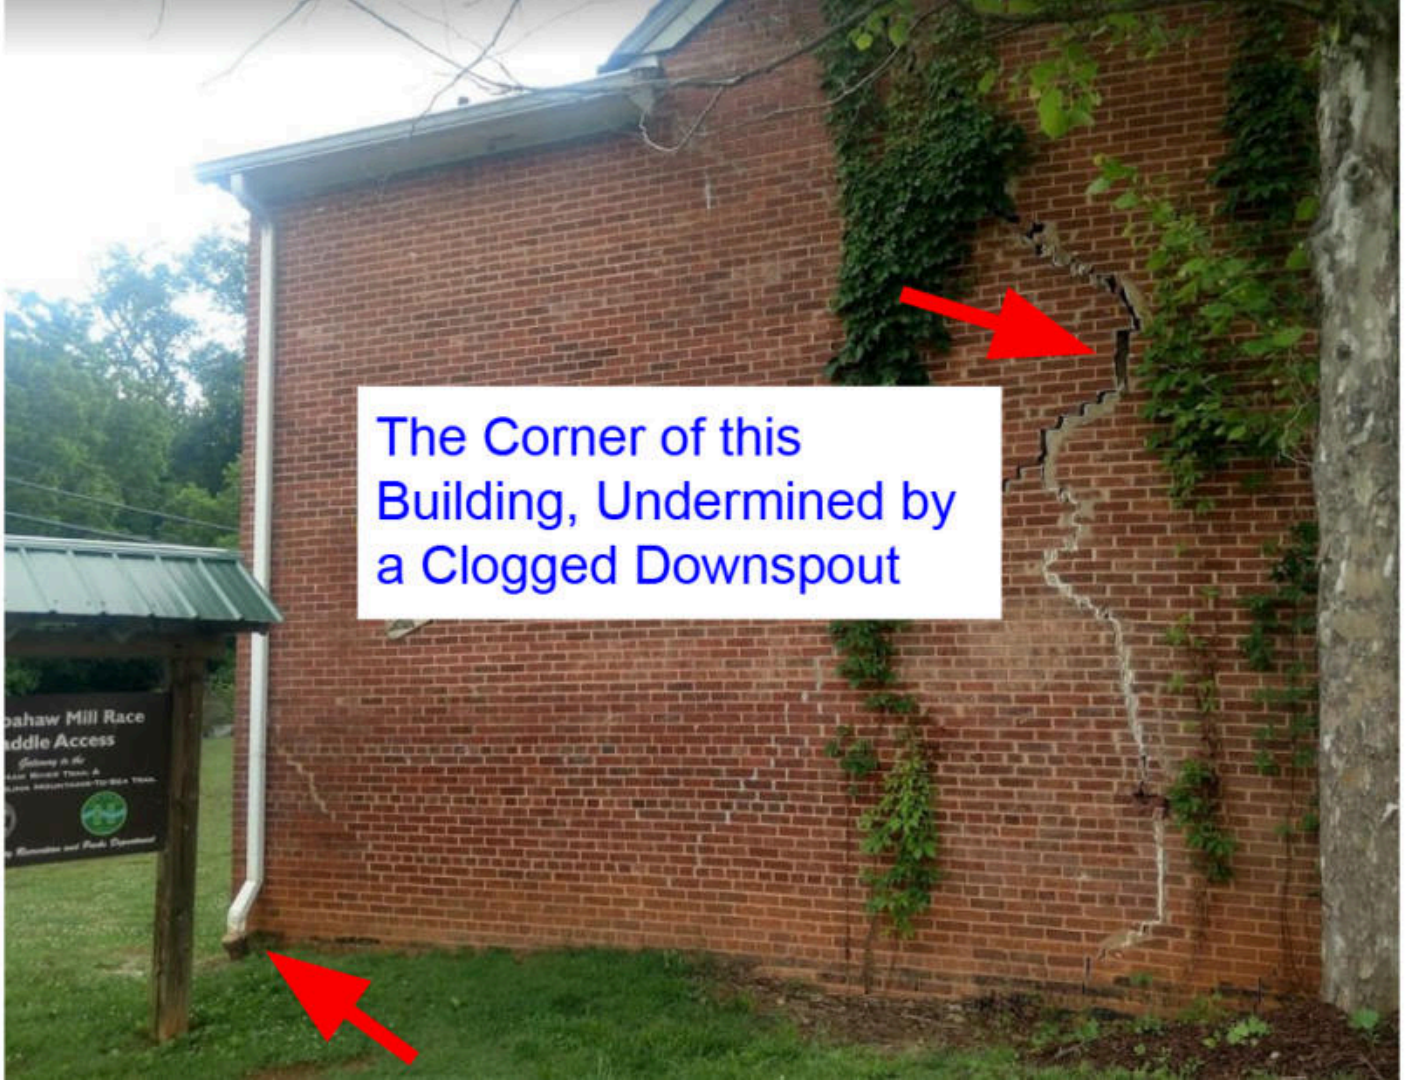

This was Caused by Poor Grading, Clogged Downspouts & a Clogged Foundation Drain

Drain Designs

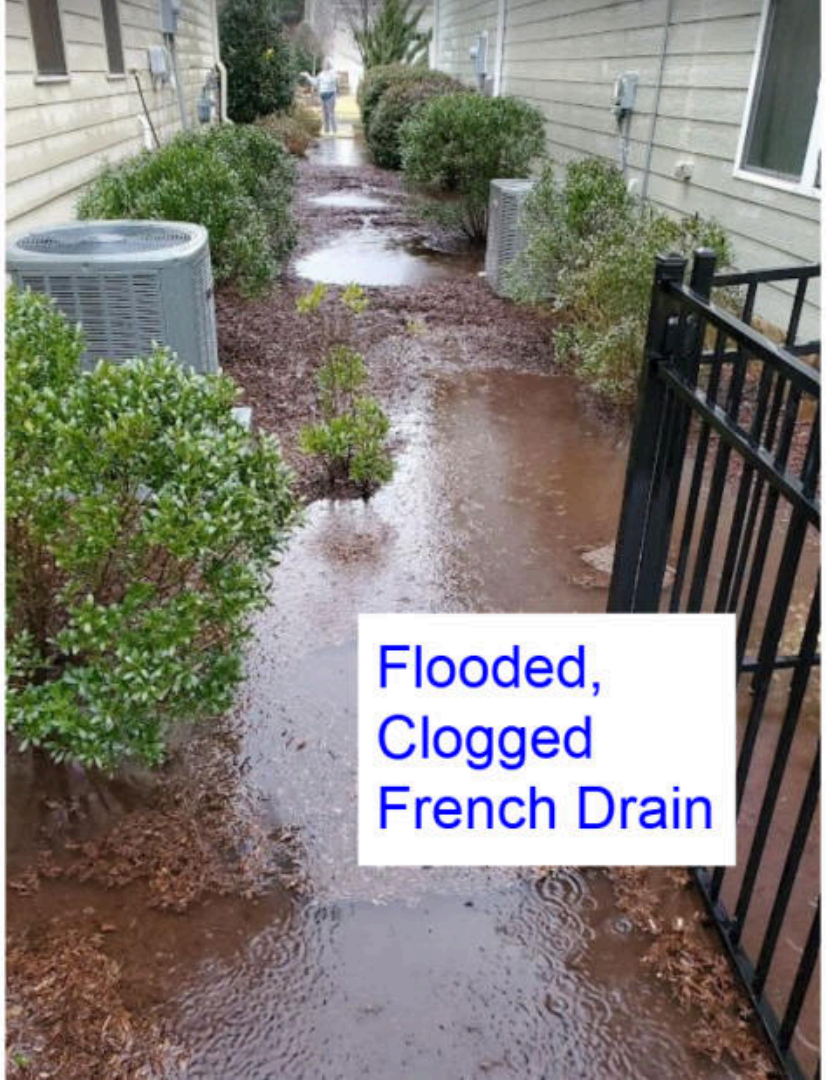

Smart Drainage Solutions

1-800-DRAINAGE

The Corner of this Building, Undermined by a Clogged Downspout

Yard Flooding,
Damaging Driveway
& Foundation

Flooded,
Clogged
French Drain

Wet Soil Expands and
Cracks Foundation

This Clogged Corrugated Downspout Pipe was backing up & Damaging the Foundation.

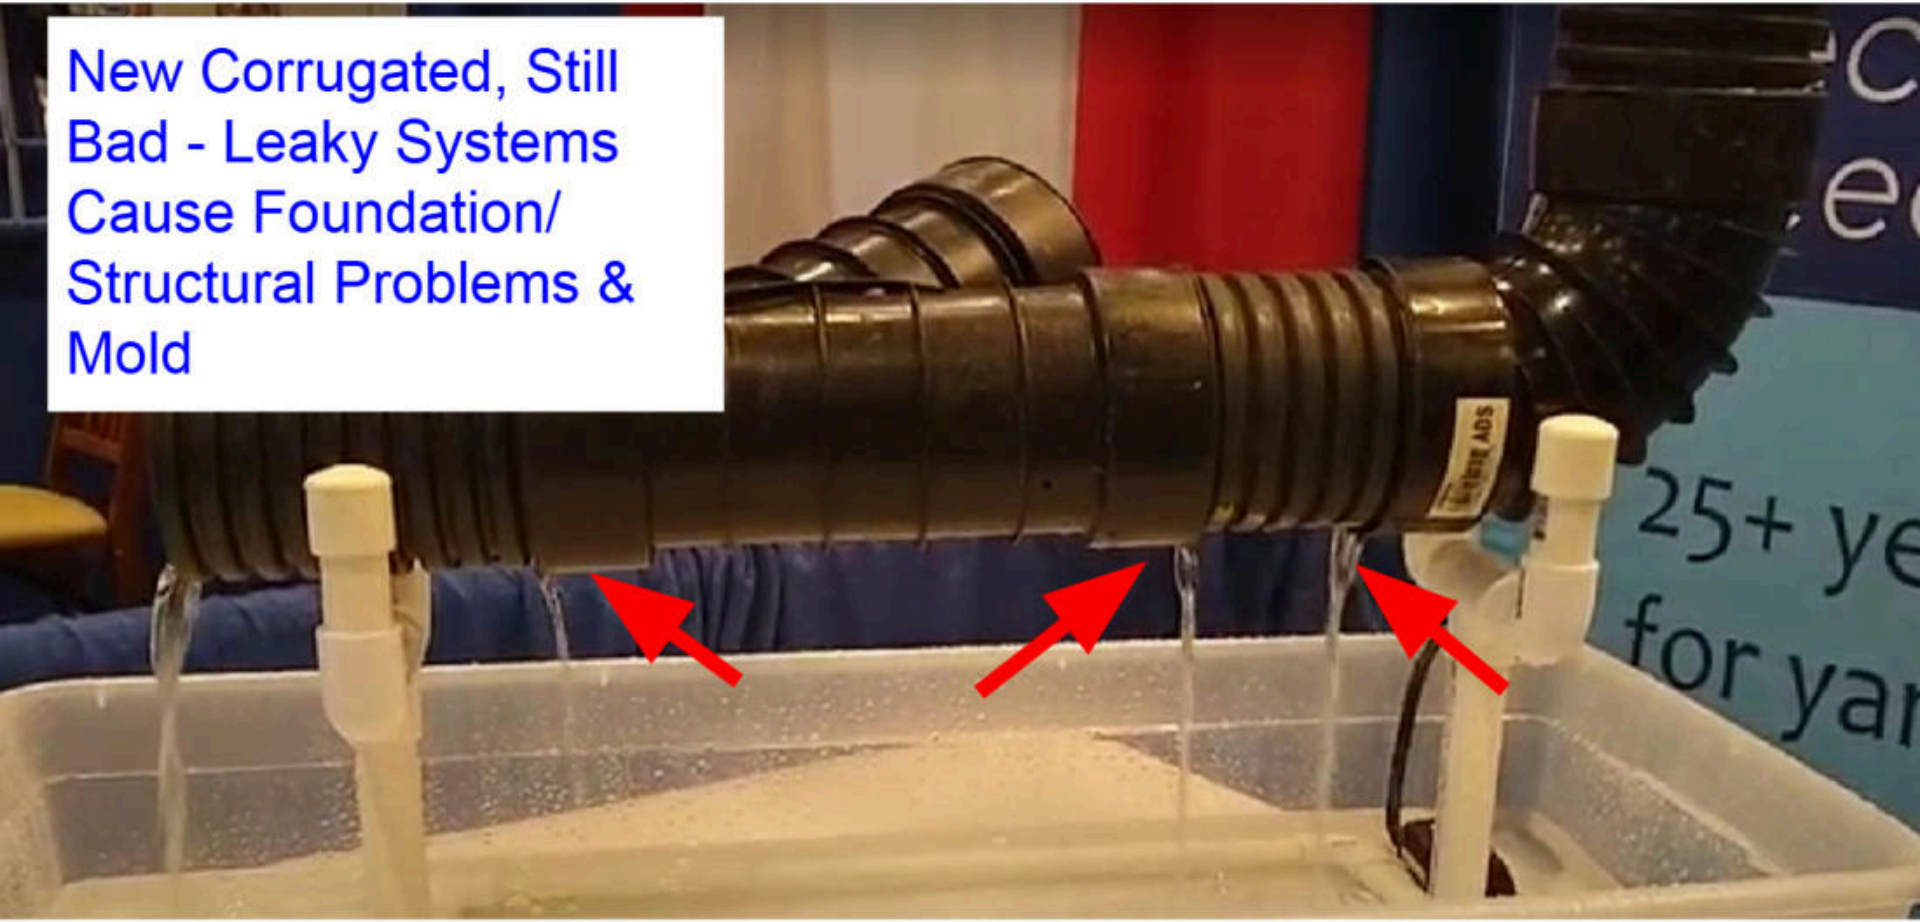

Clogged Corrugated Pipe

The Sump Pump
can’t Keep Up

Downspout Drains and Surface Drains help Prevent Erosion & Yard Flooding

Standing Water causes Basement
Flooding/ Wetness and Mosquitoes

New Corrugated, Still Bad - Leaky Systems Cause Foundation/ Structural Problems & Mold
25+ ye
for yar

Waterproof the Basement Right the 1st time for $16,000… So you don’t need to do it the 2nd time for $60,000
